### About Bled and Slovenia

CESPT Symposium is returning to its birthplace of Bled for the first time in 30 years from its inception. Bled is without a doubt one of the most breath-taking meetings' destinations that will astonish visitors year-round. The endless beauty of a city embraced by the idyllic nature, situated in the northwest corner of Slovenia, at the foot of the Julian Alps, just 50 kilometers northwest of Slovenia's capital of Ljubljana and 150 kilometers from the Adriatic coast, will leave you speechless with a first glance of its stunning view of the emerald lake, romantic island, and Bled Castle atop a steep white rock in the background.
